-  Zone 3 *Low Potential (less than 2 pCi/L)*

Radon Facts

- The Radon Control Program was established by the Montana Legislature in 1993 through the Radon Control Act.

Montana Radon Fact Sheet

Montana Enacted Legislation

Montana Code §§ 75-3-601—607: Requires radon professionals to pass a EPA proficiency examination in order to be publicly listed as proficient. Requires the Department of Environmental Quality to administer a program designed to educate and inform the public about radon, including: making presentations and providing materials; maintaining a toll-free telephone number; providing technical and training information on radon measurement and mitigation; establishing listings of qualified radon measurers and mitigators; and encouraging homeowners to test for radon. Requires provision of a general radon warning statement and disclosure of known radon test results to buyers of real property.
